

WASHING HANDS EFFECTIVELY WITH HAND WIPES

Step 1: Remove one wipe from pack and thoroughly wipe between both palms.

Step 2: Put your palms together and start working the wipe between your fingers.

Step 3: Rub the wipe around each thumb on each hand.

Step 4: Rub your fingertips together and work the wipe into your nails to help remove any dirt that may be trapped.

Step 5: Wipe around your lower arms and wrists and if necessary repeat steps 1-5 if hands are heavy soiled.

Step 6: Dispose of hand wipe(s) and if required dry hands using paper towel.
