

## The Ethos of our Club

We work together to ensure that all of the children feel that **this is a Club for them**, where they have a right to play with others in a well ordered, caring and safe environment.

- A Club where they contribute and their voices are heard and action is taken or changes are made because of their comments.
- A Club which helps them to play, or be creative or participate in sporting activities in a co-operative and friendly manner.
- A Club where inclusion and positive attitudes towards others, regardless of ethnicity, ability, disability and age is accepted as the norm.

**Please Note** this will be reviewed periodically with the children and staff as it must be an 'active' policy.
