The Charles Close Society was founded in 1980 to bring together all those with an interest in the maps and history of the Ordnance Survey of Great Britain and its counterparts in the island of Ireland. The Society takes its name from Colonel Sir Charles Arden-Close, OS Director General from 1911 to 1922, and initiator of many of the maps now sought after by collectors.

The Society publishes a wide range of books and booklets on historic OS map series and its journal, *Sheetlines*, is recognised internationally for its specialist articles on Ordnance Survey-related topics.

## *A list of 1:25,000 Second Series editions, 1965–1996*

*Richard Oliver*

The twentieth anniversary of the issue of the ‘southern block’ of the Ordnance Survey 1:50,000 map was marked in *Sheetlines* 39 by a short history of the 1:50,000, followed by what was intended as a complete list of the various editions of this mapping. This list has been updated since via *Sheetlines*’s ‘New maps column’. It was my intention then to follow it with a similar list of the 1:25,000 Second Series family, partly because the ‘survey dates’ by and large give a useful idea of the progress of the large-scale resurvey of Great Britain of 1943-82, partly so as to elucidate which *Pathfinders* had and had not been published, and partly because about this time (Spring 1994) Ordnance Survey adopted a policy of omitting survey dates from both new editions of existing sheets and new publications of the 1:25,000, in favour of ‘revision’ dates which might lead the unwary into thinking the map more up-to-date than in fact it was. (This was explored in *Sheetlines* 47, pp 58-64.) Since then the decision has been taken to phase out the 1:25,000 *Pathfinders* in favour of a ‘large sheet series’ of *Explorers* and *Outdoor Leisure*

*Maps*; few further new editions of 1:25,000 *Pathfinders* may be expected, so the following list is presumably reasonably complete. (Nonetheless, I shall be glad to learn of any errors or omissions, and publish corrections.)

The story of the OS 1:25,000 family to early 1993 (i.e. after the publication of the Gower special sheet (*Pathfinder* 1126) but before the announcement of the *Explorers*) was told in *Sheetlines* 36 (April 1993), pp 1-27. The first sheets of the Second Series appeared in 1965, and the last officially in 1989, by which time it had been decided not to publish those *Pathfinders* which were wholly covered by *Outdoor Leisure Maps*, so that 1:25,000 Second Series cover was by a hotchpotch of a majority of small-sheet *Pathfinders* and a minority of large sheet *Outdoor Leisure Maps*, with ‘ghost’ numbers allocated to the unpublished *Pathfinders*. Matters were then further complicated by a number of *Pathfinders* being either withdrawn or published on new sheet lines in order to reduce or eliminate overlap onto adjoining *Outdoor Leisure Maps*.

The list is arranged in the following order: (1) *Pathfinders*; (2) *Outdoor Leisure Maps*; and (3) *Explorers*.

The columns are laid out as follows:

- National Grid sheet number (where applicable)
- Consecutive sheet number
- Survey date on ‘A’ edition (omitted on pre-1969 printings)
- Edition codes and publication date given in monthly publication report; changed survey dates on new editions are given in square brackets.

**Ordnance Survey of Great Britain**  
**1:25,000 Second Series**  
**Summary of editions (coloured maps only)**  
*(Complete to 31 October 1996)*

**(1) Pathfinder Maps**

*N.B.* Sheets which have been replaced by Outdoor Leisure Maps (OLMs) or Explorer Maps (EX) since January 1994 have not been indicated. 'p' in National Grid sheet number = 'part of'.

## (2) Outdoor Leisure maps

*N.B.* Map titles have been given in 'concise' rather than 'extended' form. OLM numbers not carried on published maps are given in brackets: 'pt rv' = 'partial revision'. Details of Outdoor Leisure Maps using 1:25,000 Provisional Edition / First Series material are given in brackets.

\*\*\* A number of corrected reprints have had to be omitted from the following list, as the compiler has no knowledge of whether were of 'bar-star' or 'number' type. The compiler would welcome additional information: see address following the end of this list.
