

### **Questions specific to the Asia oxo-alcohols markets**

Our Company, subscriber of the Oxo-Alcohols (Asia Pacific) report, consider the CFR East Asia (exempt from import duty) assessment very important in our business decision process and for the Chinese market intelligence in the A/P region.

As a matter of fact it constitutes one of the main reason for our subscription.

We understand that you are evaluating to discontinue such an assessment beyond the end of 2014.

For the above mentioned reasons we kindly request ICIS not to terminate this assessment in the Oxo-Alcohol (Asia Pacific) Report whose subscription has been by the way renewed in recent days.
