

WAVE OF PE EXPANSIONS ON THE US GULF COAST UNDER WAY

This infographic shows that low-cost feedstocks derived from shale oil have spurred a wave of new crackers and polyethylene (PE) projects along the US Gulf coast, where much of the PE imported into Latin America originates. The US has already added a significant volume of new capacity, with more new projects set to start up over the coming years.

US ETHYLENE & POLYETHYLENE PRICE REPORTS

ICIS price reports provide independent, objective and trusted intelligence for over 180 chemical commodities across America, Europe and Asia. Use ICIS information to: follow fluctuations and understand factors driving them; input into your own internal analytical models; clarify settlements and contracts; inform negotiations.

Critical market data, tools and expertise for the Latin American Markets

Pricing Intelligence

Access independent price assessments that meet IOSCO's PRA Principles and are widely trusted and used as benchmarks in the industry. ICIS coverage is unrivalled with pricing data and information for over 180 commodities across all key regions. Make fast and confident decisions and determine the best time to buy or sell, with access to:

- Spot and contract price assessments, including personalised alerts to notify you of changes
- In-depth analysis and price history to help you track and understand price drivers and trends
- Easy access to information, with multiple delivery options

Analytics Solutions

ICIS offers a unique combination of analytics tools designed to help you navigate and optimise opportunities in an ever-changing market, making complex analytics simple for you. Our solutions help you react quicker to market developments in a demand-led, price-sensitive global marketplace, enabling you to:

- Spot opportunities and minimise risk
- Shape future strategy
- Supplement your in-house analytics

Supply & Demand Database

Receive an end-to-end perspective across the global petrochemical supply chain for over 100 petrochemical commodities. Data includes import and export volumes, consumption, plant capacity, production and product trade flows – from 1978 up to 2040 – providing you with a long-term view of the rapidly changing petrochemical market. The database enables you to:

- Determine the local or regional scenario in a global context to support your planning
- Identify, evaluate and optimise opportunities
- Validate commercial and growth strategies
- Identify and manage financial or investment risks

Industry News

Our extensive global network of local experts report breaking news stories that impact chemical markets, influence commodity prices and affect your daily business decisions. Alerts and our one-stop platform keep you fully informed and support your planning, with access to:

- Real-time news round-the-clock
- Analysis and likely market impact
- Production news and force majeure

Specialist Services

The global team of ICIS experts brings extensive knowledge of industry sectors through:

→ Specialised Training

Expand your knowledge to navigate complex markets more confidently

→ Industry Conferences

Get the latest insights into current issues and trends from a handpicked selection of experts

→ Bespoke Consultancy

Get tailored advice and guidance to address your company's key challenges
