

## Excel Plug-In

The latest ICIS data, directly into  
your Excel worksheets

The ICIS Excel Plug-In enables you to instantly update your worksheets in Excel with current, relevant ICIS data, as well as easily integrate your data downloads into your contract formulas and spread calculations.

## How will you benefit?

- ✓ **Increase productivity**  
Download and organise your ICIS data more effectively, by eliminating frustrating manual processes and skip straight to your analyses.
- ✓ **Save time**  
No need to copy and paste. Download up to 250 data series in one go.
- ✓ **Integrate into your work**  
Export ICIS data directly into your worksheets, contract formulas and spread calculations.
- ✓ **Effortlessly update with latest data**  
Refresh your worksheets and calculations with the latest ICIS data, in a single click.
- ✓ **Identify data updates**  
Updates are highlighted, to help you pinpoint developments, so you don't have to worry about manual amendments.
- ✓ **Support decision making**  
With the latest ICIS data updating directly into your worksheet, you'll have all the data you need already in your analyses, so you get more time to focus on what's important for your business.
- ✓ **Increase competitiveness**  
Having the ICIS data already integrated into your formulas will enable you to make quicker decisions and help you seize market opportunities.

### System Requirements:

**Operating System**  
Windows 8/8.1, 32-bit and 64-bit

### Software

Microsoft .Net Framework: .Net 4.5 Full.  
MS Office 2010 or later,  
MS Excel 2010 or later

### System Configuration

Processor = multi-core, multi-threaded CPU  
with clock speed > 2GHz  
Memory = min 8GB RAM  
Hard Drive space = min 2GB
