

Surveys works for Granby Terrace Bridge extension

October 2018 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain.

As part of developing the route design of the HS2 high-speed railway, we are carrying out survey works for the extension of the existing Granby Terrace Bridge over the new High Speed Two railway.

What are we doing?

The survey will be carried out at track level under Granby Terrace Bridge during Network Rail engineering hours between 9pm on Thursday 15 November and 5am Monday 19 November.

An inspection pit will be hand dug and soil samples taken. The survey will then be carried out from a specialised testing rig vehicle, which will be parked above the pit.

After the completion of the survey the ground will be reinstated.

How will this affect you?

These works are being carried out during the weekend as the survey area is next to the operational railway and access to the worksite can only take place during Network Rail engineering hours.

The testing rig will be shut down or running at a minimum during periods between works. We will use acoustic panels to mitigate any noise from this operation and work as quickly as possible.

We recognise the disturbance this work may create and apologise in advance for any disruption you experience.

If you have a question about HS2 or our works, please contact our helpdesk on 08081 434 434 or email HS2enquiries@hs2.org.uk
