

Update: ground investigation surveys on Park Village East

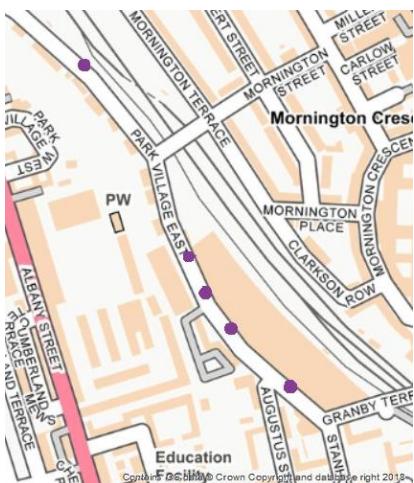

January 2019 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. As part of developing the route design of the HS2 high-speed railway, we are carrying out further ground investigation works in your area. The results will build on the information we already have from work done in 2017, helping us get a better understanding of the ground conditions and underground building foundations.

What are we doing?

Due to unforeseen circumstances, ground investigation surveys along Park Village East could not start from mid-January as planned. Subject to approvals, the ground investigation surveys are now planned from the week commencing 18 February for up to four weeks. As before, the surveys are planned at five locations between 1 and 48 Park Village East, taking place at one site at a time to minimise disruption.
