

Breakspear Road South, northbound lane closure

December 2018 | www.hs2.org.uk

High Speed Two (HS2) is the new high speed railway for Britain. Works are required to complete the diversion of an Affinity water main. The nature of the works mean that it can only be carried out under a northbound lane closure of Breakspear Road South. The scheduled work involves excavation within the road. This will enable the connection between a new and existing water main that runs underneath Breakspear Road South.

Northbound lane closure

During the recent closure of Breakspear Road South a number of works were completed. However, Affinity Water were not able to provide the resources to complete these works then due to an emergency elsewhere on their network. These works are now scheduled to be completed in early January 2019, and the single lane closure of Breakspear Road South will be required for nine days.

The traffic management arrangement will consist of a lane closure with a two way temporary signal lights, on the north bound carriageway. This will be running from outside the Merck Sharpe and Dhome site entrance to Farmers House.

24 hours, 7 days a week

To help against long term disruption and to reduce the length of the duration of the lane closure we have proposed to work 24 hours a day, seven days a week. During night time work all efforts will be made to minimise noise. Any noisy activities will be carried out during the day.

Area of the lane closure

These works will require a northbound lane closure on Breakspear Road South, which will consist of a two-way lights and signage to include slow signs and a 300 yard countdown.

Key:

- Lane closure area

Future planned road closure

A further full road closure of Breakspear Road South will be required in late winter/spring 2019 to allow the completion of all utility and service connections for the new access road. This will be programmed to include the Easter school holidays of 2019 in an effort to minimise disruption.

We will write to you again in early 2019 to provide further details.
