

# Notice of works update at Ruislip Golf Course

January 2019 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. HS2 are continuing the preparatory works and construction works at the Ruislip golf course.

## Update on site set-up, surveys and demolition

We continue to work to get the area ready for construction at Ruislip Golf Club. Work so far has included putting up hoarding around our work site, marking out bays in the golf club car park, relocating the pub's bin storage area and conducting surveys of the rifle club building.

From 21 January onwards until the end of April, further work will include:

- Installation of more timber hoarding to replace the wire fence
- Creating a new site entrance and exit and removal of soil to build a new access road
- Vegetation clearance and tree removal in areas behind the club house extending to Breakspear Road South
- Constructing a temporary bridge will be constructed over the River Pinn to provide access for our equipment
- Further surveys of the rifle club building and the ticket office, and disconnection of utility services for both buildings
- Demolition of the two buildings
- Carrying out some additional ground investigation surveys at the south side of the golf course, within our hoarded work site.

## What else will be happening?

**Vegetation and tree clearance.** This work will start at the golf club and extend approximately 1km west towards Breakspear Road South. It will involve clearing the area of bushes and shrubs, tree felling, and stump grinding.

**Construction site entrance and exit.** The site entrance on Ickenham Road will provide an entrance for our construction traffic and will exit onto Clacks Lane. To support the new site entrance and exit, we will temporarily close the footpath and cycle lane on Ickenham Road and Clacks Lane. The work will consist of removing existing kerbs, relocating signs and constructing the site entrance and exit.
