

# Cadent Gas access construction from Harvil Road: lane closure

January 2019 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Cadent, who operate the gas distribution network in the area, will need to move underground gas pipes to allow for the construction of the new railway.

To allow Cadent to undertake these pipeline diversions, they will need to construct a new site access to the west of Harvil Road. Construction work will begin on 17 January 2019 and we expect work to take around three weeks.

## What are we doing?

The new access will allow Cadent to securely enter the construction site west of Harvil Road needed to divert the existing gas pipeline. They will continue to use the site east of Harvil Road as their main construction compound. Cadent will continue the pipeline diversion works which are due to be completed later in 2019.

## How will this affect you?

From 17 January until 1 February 2019, Cadent will need to close the lane and operate traffic management at the location between **9.30am to 3pm mid-week**. This is to allow them to safely work near the roadside and we're sorry for the inconvenience caused.

## Duration of work

- Construction between 17 January to 1 February 2019 (access in use from 4 February)
