## Update on gas pipeline diversion works near Harvil Road, Harefield

September 2019 | [www.hs2.org.uk](http://www.hs2.org.uk)

High Speed Two (HS2) is the new high speed railway for Britain. Cadent need to move an existing gas pipeline near Harefield to facilitate HS2's construction, and to continue to ensure a safe and reliable gas supply to the area.

### What are we doing?

We are continuing our work to divert a gas main off Harvil Road. In order to ensure the work is complete by November 2019 when the pipeline is due to be operational, we need to extend our working hours at the site to the west of Harvil Road. We will be working 7am to 7pm, Monday to Sunday from September until November 2019. No noisy work will take place before 10 am on Sundays.

The work to move the pipeline will include:

- Digging trenches for the new pipeline between the existing pipeline north of the Chiltern Mainline, to a point south of the Dogs Trust
- Installing a new pipeline between these two locations before covering them up again
- In some areas, we will also be using a method for tunnelling underground called Horizontal Directional Drilling.

There will be 24 hour security on site so we can maintain a safe working environment.

### How will this affect you?

These works will not impact local gas supplies.

Where we need to carry out tunnelling, we may need to work 24 hours a day, but will aim to keep this to a minimum. This means you may notice people and equipment on-site during the night or early hours of the morning.

Temporary traffic lights will be used for brief periods to allow certain equipment delivery vehicles to enter the site safely.

**If you have a question about HS2 or our works, please contact our HS2 Helpdesk team on 08081 434 434 or email [hs2enquiries@hs2.org.uk](mailto:hs2enquiries@hs2.org.uk)**

## Notification

### Duration of work

September 2019 until November 2019

Our core working hours will be 7am to 7pm, Mondays to Sunday

No noisy work will take place before 10 am on Sundays (Tunnelling activity may be 24 hours for limited periods)

We will be on-site one hour either side of these times for site set-up and close-down.

### What to expect

- We may need to work 24 hours a day for limited periods while we carry out some tunnelling. We do not anticipate this work to be disruptive
