

NOTICE OF GROUND INVESTIGATION SURVEYS

VICTORIA ROAD

What are we doing?

As part of developing the route design of the HS2 high speed railway, we are carrying out utility trial hole surveys on **Victoria Road** between **20 July** and **3 August**.

The surveys will involve temporary holes being dug, which will enable us to establish where utilities and services are located beneath the road surface.

How will this affect me?

The trial holes will take place within the carriageways located on Victoria Road between 20 July and 3 August. Please see the map overleaf for the location of these works.

The following traffic management measures will be in place to allow Victoria Road to remain open during the works:

- The works will take place in the carriageways with one lane open to traffic at all times during the works.

We will erect temporary screening with acoustic panels to reduce noise, working as quickly as possible and keep work areas tidy. We recognise the disturbance this work can create and apologise in advance.

Duration of works

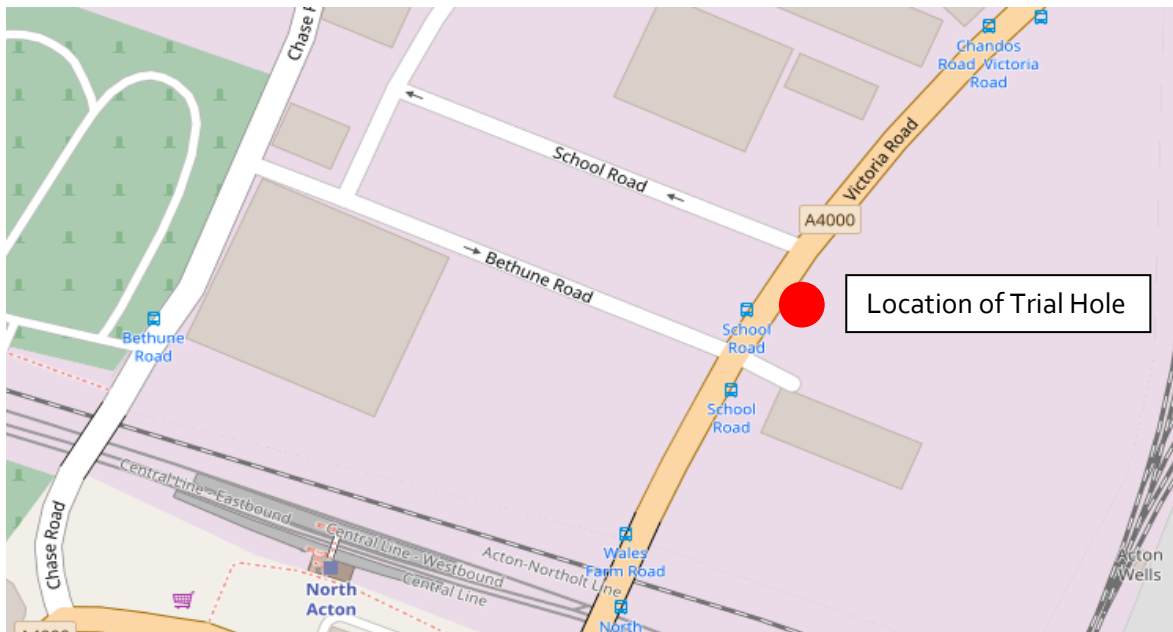

- **Victoria Road** from **20 July** to **3 August**
- Working hours: 8am - 6pm, Monday to Friday
- Our contractors may also be on site for one hour's start-up and shutdown.

What to expect

- Traffic management measures will be in place
- The sites will be secured with construction fencing
- Acoustic panels will be used to reduce noise.

What will we do

- Ensure our staff only use prescribed lorry routes
- Ensure our staff do not park in public car parking spaces
- Inform you of any changes to these dates.

If you have any questions or if you would like to find out more, you can get in touch:

✉ **Write to:** HS2 Helpdesk, Two Snowhill, Snow Hill Queensway, Birmingham, B4 6GA
