# Old Oak Common Station Questionnaire

February 2019

We are developing designs for the new Old Oak Common Station, and we would like to hear your views on the design objectives which have been at the heart of the design process. We have created a design vision which centres on 'people', 'place' and 'time'. This vision helps to ensure that the station has a strong relationship with the local area and its communities, as well as supporting future aspirations for the local area. The design vision is underpinned by five key themes: public space, heritage, local connectivity, regeneration and integration into the wider Old Oak Common area.

## Public space

The developing Old Oak Common Station design aims to ensure that it provides high quality and accessible public spaces for the enjoyment of local people, travelling customers, staff and visitors alike. **Please let us know how important these objectives are to you, on a scale of 1-5, where 5 is 'extremely important', and 1 is 'not important at all'.** Please circle your response.

	Not important at all	Somewhat important	Important	Very important	Extremely important
Creating spaces which are functional and useful	1	2	3	4	5
Creating a high-quality environment for the station	1	2	3	4	5
Providing spaces for visitors and local people to enjoy (such as events or recreational spaces)	1	2	3	4	5

## Regeneration

Old Oak Common Station will play an important role in the regeneration of the local area whilst also providing opportunity for the local community. We recognise the station will catalyse growth and regeneration and that a flexible and adaptable design is important to provide for future growth. **Please let us know how important these objectives are to you, on a scale of 1-5, where 5 is 'extremely important', and 1 is 'not important at all'.** Please circle your response.

	Not important at all	Somewhat important	Important	Very important	Extremely important
A design which complements and enhances local transport connections	1	2	3	4	5
A design which can adapt to changes in the area	1	2	3	4	5
Enabling spaces that create vibrancy, promote arts and cultural opportunities	1	2	3	4	5

**Please turn over.**

## Heritage

There is a rich railway history in Old Oak Common; the new station will incorporate these heritage elements and provide a national station with a local setting connected to its past. **Please let us know how important these objectives are to you, on a scale of 1-5, where 5 is 'extremely important', and 1 is 'not important at all'.** Please circle your response.

	Not important at all	Somewhat important	Important	Very important	Extremely important
Enhancing the area's existing railway infrastructure	1	2	3	4	5
Celebrating the Old Oak Common railway heritage within the station's design	1	2	3	4	5
Promoting the feeling of connection to the history of the area by local people	1	2	3	4	5

**Are there any aspects of local heritage which you would like to celebrate as part of the station design?**

## Local connectivity

The new station will be one of the largest transport interchange stations in the country. It will also be supported by a network of local transport options such as buses, taxis, and cycling infrastructure which will enable people to travel to and from the station easily. **Please let us know how important these objectives are to you, on a scale of 1-5, where 5 is 'extremely important', and 1 is 'not important at all'.** Please circle your response.

	Not important at all	Somewhat important	Important	Very important	Extremely important
Vehicles and pedestrians should be separated	1	2	3	4	5
There should be distinct pedestrian and cycle routes which allow easy travel to/from the station	1	2	3	4	5
A station that is accessible to all	1	2	3	4	5
A station that provides a seamless and easy interchange between HS2 and other connections	1	2	3	4	5

### Integration into the wider Old Oak Common area

An important goal of the station design is to ensure that Old Oak Common Station can connect and integrate into the local Old Oak Common area. The developing design incorporates the following objectives with regards to connections to the local area. **Please let us know how important these objectives are to you, on a scale of 1-5, where 5 is 'extremely important', and 1 is 'not important at all'.** Please circle your response.

	Not important at all	Somewhat important	Important	Very important	Extremely important
Creating accessible and open spaces	1	2	3	4	5
Creating vehicles, pedestrian and cyclist routes which allow easy access to and from the station	1	2	3	4	5
Provide the potential for future connections which support the development of the area	1	2	3	4	5

### Old Oak Common Station design vision

Of the five key themes which underpin our design vision, which do you feel is most important.

**Please tick one option only.**

- The use of public spaces in and around the station
- Celebrating local heritage in the station designs
- Enabling local connectivity
- Enabling growth and regeneration in the area
- Integrating into the wider Old Oak Common area

### Engagement activities

Do you disagree or agree with the following statements? **Please tick one option only.**

	Completely disagree	Disagree	Neither agree nor disagree	Agree	Completely agree
Did you find the information provided as part of these engagement activities helpful?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Has this engagement exercise met your expectations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Do you feel you have been given all the information you need to provide comment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

**Please turn over.**

## Engagement activities (continued)

Are there any other methods of communication you would like us to use in the future?

## Other comments

Do you have any further comments about the new station design or engagement activities?

## About you

Please let us know a little about you. All information is optional, but will help us to understand different interests regarding Old Oak Common Station.

## Data protection

This data is being collected to help understand views regarding the HS2 Old Oak Common Station designs. The data will not be used for any other purposes. The data will be collated and analysed to help in the reporting of survey feedback. This information will be used by the Old Oak Common Station project team. We will not share this data with any other parties unless required to do so by law. We do not, and will not, sell personal information.

## Returning your response

You can return your feedback in the following ways:

Complete the questionnaire online at: [hs2inoldoak.commonplace.is](https://hs2inoldoak.commonplace.is)

Complete a paper copy and return to: **FREEPOST HS2 Community Engagement.**

(Please place the completed questionnaire into an envelope. You will not be required to pay postage costs. No other address details are required)
