

UPDATE ON HS2 ACTIVITY ON VICTORIA ROAD AND SCHOOL ROAD

23 April 2018

What are we doing?

As we move into the second quarter of the year, further activities for the development of HS2 are ongoing within your area.

We are continuing our trial hole investigations programme along Victoria Road and School Road which will require traffic management.

Additionally, surveys of Victoria Road are due to take place to support the upcoming improvement scheme on Victoria Road.

Trial Hole Investigations

In order to safely carry out the trial hole investigation works that are scheduled to take place on **Victoria Road** and **School Road** there will be a requirement to install temporary traffic management.

Investigation will be undertaken across the entire width of each road, however, work will only take place on one lane at a time to ensure that traffic flow is maintained throughout the process.

School Road: from **25 April 18** to **09 May 18**; a single lane closure will take place first on the northern section of carriageway, followed by a single lane closure on the southern section. To support this, a small amount of parking bays (6-8 in total) will be suspended to allow the works to be carried out in a safe manner.

Victoria Road: from **10 May 18** to **22 May 18**; a single northbound lane closure will take place on Victoria Road, outside of the Europa Studios. This will be followed by a single southbound lane closure, outside of Europa Studios.

During both trial holes investigations, we will maintain a single line of traffic on each road.

Duration of working hours

- Day time working hours: 8am to 6pm
- Our contractors may also be on site for one hour's start-up and shutdown

What to expect from the utility investigations

- The site will be securely fenced
- We will erect acoustic panels to reduce noise as much as possible
- Our contractors will only use approved traffic routes
- Traffic management (signs, traffic control lights) will be in place as appropriate

What we will do

- Inform you in advance of any changes to the dates shown
- Ensure that all sites are reinstated

Improvement Scheme Surveys

We plan to carry out an improvement scheme of the cycle path along **Victoria Road** during 2019. To ensure we employ the appropriate methods for improvement, we will need to undertake surveys along the entire length of the road. To complete these investigations, there will be a requirement for a full road closure of Victoria Road, with a duration of **3 nights**.

The surveys are due to take place during the week commencing **14th May 18 for 3 nights**; between the **22:00pm to 05:00am**. The road will be open to public use as normal during daylight hours. Access for residents will be maintained.

We recognise that construction work can be disruptive to those living or working nearby. The nature of our work often means some disturbance is unavoidable, but please be assured that every effort is made to minimise any unnecessary noise and we have reminded all staff and contractors to be considerate of the environment they are working in.

Duration of working hours

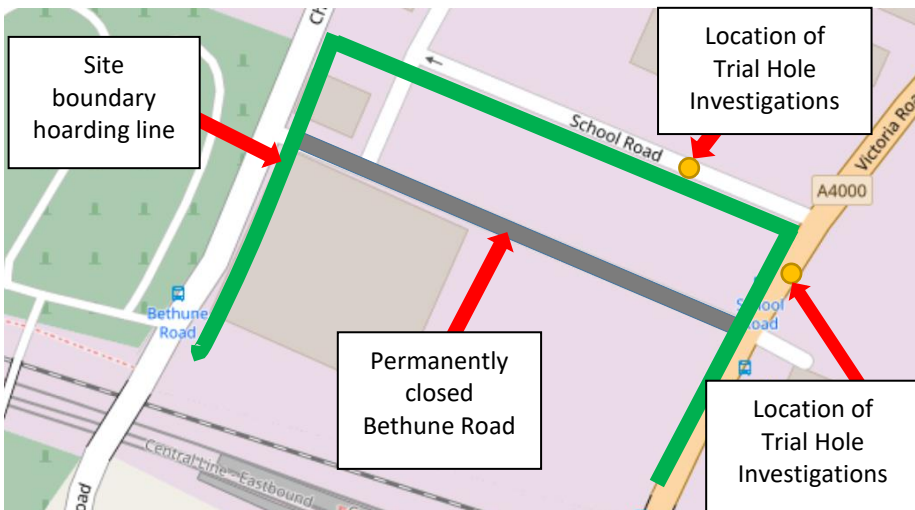

- Day time working hours: 8am to 6pm
- Night time working hours: 10pm to 5am
- Our contractors may also be on site for one hour's start-up and shutdown

What to expect

- Full road closure of Victoria Road for 3 consecutive nights
- Traffic management (signs, traffic control lights) will be in place as appropriate

What we will do

- Inform you in advance of any changes to the dates shown
- Keep all sites safe and secure
- Ensure that the contractor vehicles use agreed routes
- All construction staff will be encouraged to use public transport or a crew bus for access to site to minimise additional traffic
