

February 2019

Notification of Cadent valve works

Cadent will be commencing preparation works for a valve they need to install within the Severn Trent Operational Compound at Coleshill.

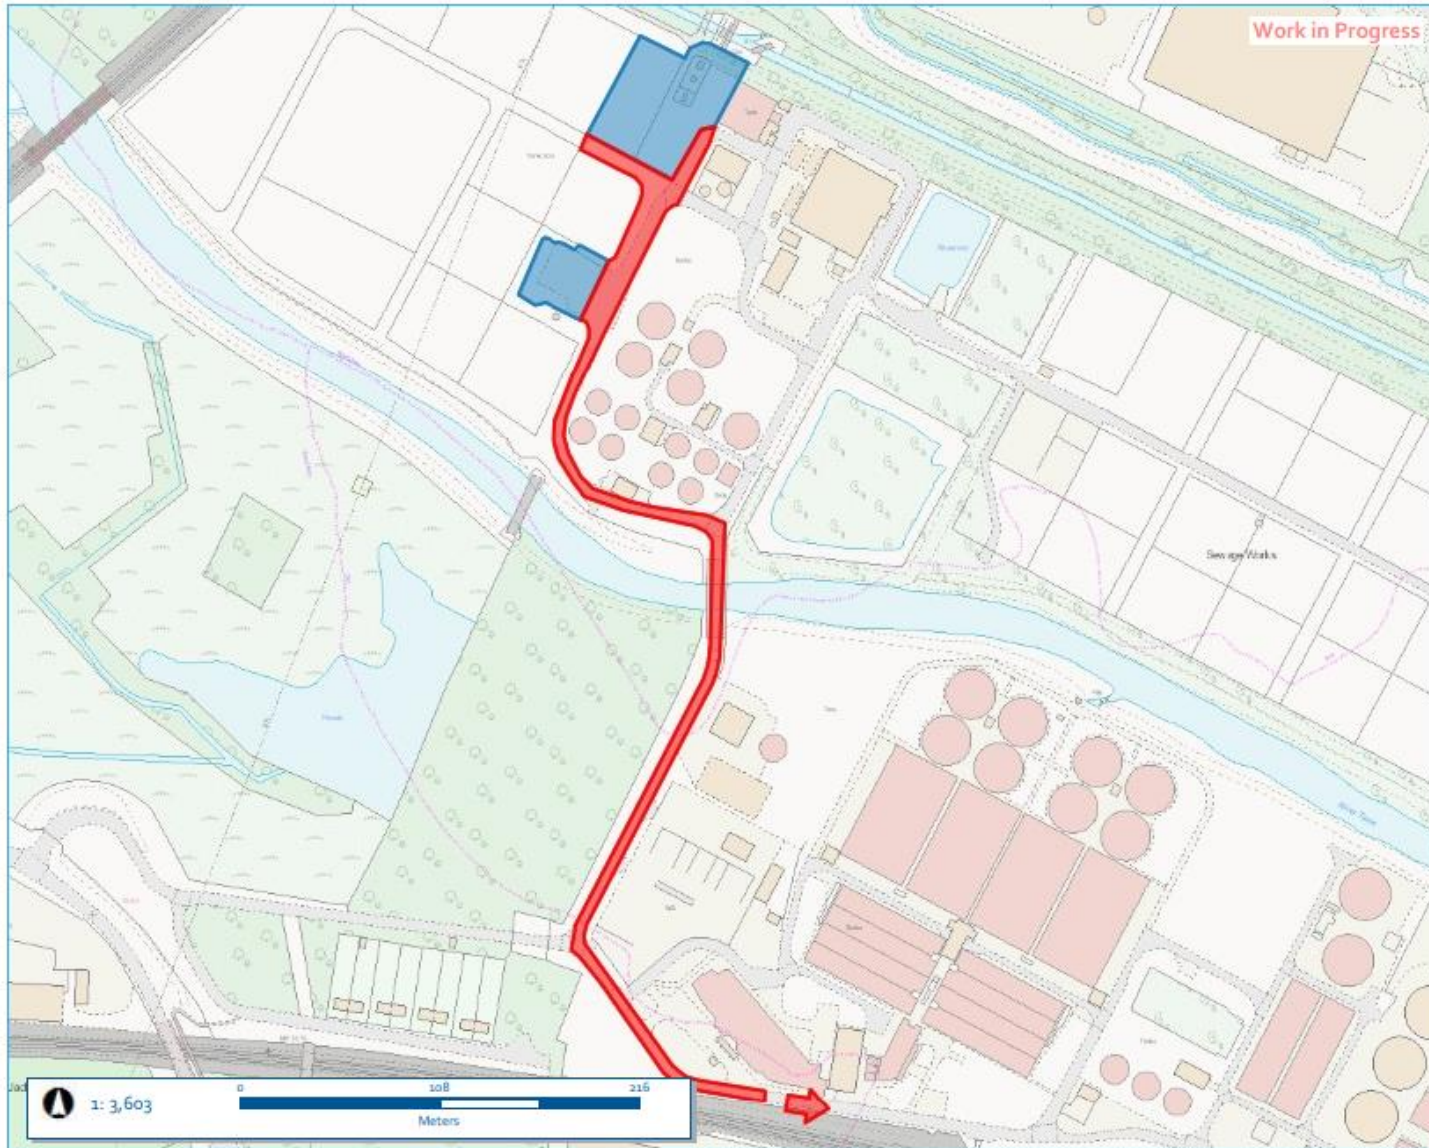

The valve is required to facilitate the isolation of the pipeline in 2020, when Cadent will be diverting the pipeline.

The scope of the proposed work will consist of the following:

- Minor vegetation clearance, planned to start w/c 25th February 2019
- Trial Pit on existing pipeline, planned to start w/c 4th March 2019
- Remove redundant pressure reduction installation in area, planned to start w/c 11th March 2019
- Isolate pipeline/install new valve, all works complete by July 2019

The valve is within the confines of the existing Severn Trent Operational Compound. All work traffic will access via the main Severn Trent approach agreed with Severn Trent.

The attached plan indicates the Access Detail (Red) and working area (Blue).
