

## Release Notes

### **ClearDB Documenter 5.0.1 (build 442)**

#### **IMPROVEMENTS**

- **Database Object Tree**
  - Counting of objects on the Database Object Tree step is now disabled by default. It can be turned on at “Preferences > Database Object Tree > Counting objects on tree loading”.

#### **BUGS FIXED**

- **Generation Status and Log**
  - “Error: ORA-00942: table or view does not exist” no longer occurs on trying to generate a database report for Oracle Database 18c when the object type UNIFIED AUDIT POLICY is included.
