Dentressangle

Clipper

About Us

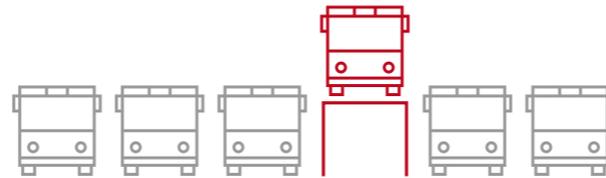

The UK transport and logistics industry is worth £74.45 billion to the UK economy and employs around 2.2 million people in over 196,000 companies.

Temporary agency labour has played a valuable role in the operational strategy of the industry, allowing businesses to respond quickly and efficiently to market growth, seasonal shifts and contractual wins.

1 in 12 working people in the UK is employed in Logistics

UK is the 4th top performer in World Transport & Logistics

Over 60% of UK freight is carried as 3PL

About Us

People are our greatest asset and we are committed to providing an environment in which they can prosper and develop. At PMP Recruitment we are pledged to conducting business with integrity and with respect for the interests of our employees, clients, suppliers and wider community.

PMP Recruitment is the first employment business to incorporate the EC Sector Guide for employment and recruitment agencies on implementing the UN Guiding Principles on Business and Human Rights into their organisation.

Services

Temporary Recruitment

We work with businesses to understand their staffing needs in order to provide a flexible workforce which compliments their permanent workforce. Our approach is determined by specific business needs, whether that means sourcing an individual to cover holiday, a special project or the provision of an entire team.

Our high street locations allow for maximum candidate attraction as well as our vast in-house candidate database.

Services

Managed Services

Shaped by the economic landscape, a temporary workforce has become an integral asset to many businesses. The agility of a flexible workforce allows an organisation to adapt rapidly to fluctuating business demands, yet run efficiently during muted periods.

The key to operating an effective temporary workforce is the accessibility to the right people, with the right skills at the right time. As one of the UK's leading managed service providers, we combine our recruitment expertise and industry knowledge to help our clients manage their temporary workforce across multiple locations across the UK.

Services

On-Site

We offer organisations an on-site managed service solution, which encompasses all the aspects of recruitment and the management of a contingent workforce, providing a single point of contact.

Our on-site teams provide the data to analyse and accurately forecast labour demands, often managing a high volume workforce across multiple local sites to deliver efficiencies and immediate access to available workers. Our consultants become an integral part of their clients' operation with a total focus on temporary workforce management.

Services

Permanent Recruitment

We offer an integrated approach to permanent recruitment which allows us to attract, engage and deliver talented people aligned to an organisation's culture.

Our permanent recruitment consultants are often seen as a natural extension to our clients' HR team, as they work collaboratively to identify specific details of the role, including skills, personality traits, qualifications and experience.

Our mobile workers

We take responsibility of the welfare and fairness of our temporary workers extremely seriously and as such assume all employment responsibility by issuing a contract of employment to all our mobile workers.

PMP Recruitment is one of the few recruitment agencies that engage their temporary staff on a contract of employment and not a contract for services; therefore giving full employment status. This has allowed us to attract an engaged and productive workforce. Experience has shown that employing staff on a contract of employment encourages loyalty and continuity of service from the temporary worker.
