1 9 8 8

THE QUAY CO-OP Bookshop stocks the most comprehensive and up-to-date selection of lesbian and gay titles in Ireland. From time to time, however, a few titles may be out of stock or awaiting delivery from our suppliers.

For this reason, it will help us to fill your order as quickly as possible if you can name an alternative title (at the same price) which would be acceptable as a substitute. One alternative title per order is sufficient.

Prices may fluctuate from time to time according to the exchange rate of the punt against sterling. Credit will be given against future orders where the price of a book has fallen since publication of this catalogue.

Finally, the telephone numbers of gay organisations in Cork, Limerick, Dublin and Derry are given at the back of this catalogue. These groups are run by gays for gays, and exist to listen to any worries gay people may have, and to help where possible; to provide information on gay events and meeting places in your area. or just to provide a sympathetic ear to any gay person who wants to talk.

HOW TO BE A HAPPY HOMOSEXUAL - a guide for gay men

Being gay in a hostile world has never been easy, but in this practical book Terry Sanderson asserts that it is still possible to be happy and homosexual. Drawing on his twelve years as a gay counsellor and activist, he explores the issues which pre-occupy gay men:

- Creating a positive self-image
- Whether or not to 'come out' - and how to deal with the reactions of family and friends if you do
- Making successful gay relationships
- Finding gay friends
- Gay sex and health
- The law
- Dealing with the threat of AIDS

This book contains the advice and encouragement any gay man needs for making positive changes

'In these times of increased persecution and bigotry aimed at the homosexual community, it's cheering to have a book that manages to offer hope and encouragement to gay men as well as dealing with their difficulties in a realistic way - including their new burden, the fear of contracting AIDS. I heartily welcome it and hope that many gay men of all ages, whether they have come out or not, will benefit from its understanding, practical advice' - Angela Willans, *problem page editor*.

CRUISING THE MOVIES: A Sexual Guide to "Oldies" on TV

Boyd McDonald

"Boyd McDonald is one of the nation's least appreciated and most astute film critics. Known for his keen powers of observation (particularly when it comes to sizing up the anatomy of the stars), McDonald enlivens the pages of *Christopher Street*, the gay journal of arts and letters."

-David Talbot
Mother Jones

"It is not enough to say that Boyd McDonald takes you directly to the edges of your wits. What makes him our greatest national resource is his sometimes ferocious, always erotic, commitment to the truth. And nothing but the truth will make us free."

-Tom Steele
Editor,

Christopher Street magazine

Brazil is half a continent and a unique mix of cultures: Pre-Columbian, African and European. In this turbulent melting-pot, homosexuality has always found more spaces to flourish than almost anywhere else in the modern world. This fascinating survey of Brazilian gay life ranges from the papal Inquisition to transvestite voodoo priests, and from pop music idols to Guevarist revolutionaries. It vividly conveys the exuberant and sensual texture of Brazilian society.

In Paris in July 1985, Rock Hudson was told that he had only a few months to live. He was dying of AIDS.

In the 1960s, Rock was at the height of his fame, Hollywood's top screen lover. Privately, however, he was bisexual and the strain of trying to keep up

appearances in public was beginning to tell. During the 1970s his career began to slip and he began to drink. Just as things began to improve and he gained a star part in *Dynasty* his health gave way.

In the days that followed the announcement that Rock Hudson had AIDS, he told a trusted friend: 'I think it's time to write "the book"'. It was time to tell the whole story of his life. At his request, his closest friends and colleagues co-operated fully with Sara Davidson in producing the definitive portrayal of one of Hollywood's most enduring stars.

£4.38

One teenager in ten is gay or lesbian. Here some of these young people tell their stories: of discovering their gay feelings, of deciding whether to share their secret with friends and parents, of coming to terms with being different.

If you're young and think you might be gay, these stories will help you see that you're not alone. Other teenagers have confronted the same problems as you face, and their stories and advice can make your life easier.

If you're an adult who works with young people, this book will help you understand a major issue that you may never before have thought about.

Tad wanders the cobblestoned streets of Barcelona, confusing reality, fantasies, mind games and memories . . . UNTIL he meets Günter — easily the most gorgeous Viking ever to set foot on Spanish soil — and they begin their rocky love affair.

It's Tad's *night* dreams that really get him in trouble. He tends to do just what he's dreaming about and Günter didn't have THAT in mind when he was looking for a place to park his knapsack. Or so he said!

Tad and Günter set off on a bizarre adventure filled with camels, bicycles in the Moroccan desert, a hairy alchemist and love on the edge of a cliff, all thrown together with a zany little redhead named Stacey and her crazy Gang.

But then nothing is supposed to make sense in this outrageous and comic travelogue cum romance!

And that's only part of what it means to sing 'The Baggy-Kneed Camel Blues'!

£5.45

FAGGOTS

By the author of *The Normal Heart*, the AIDS play that shook New York and London, *Faggots* sends up New York's self-imposed gay ghetto, doing for its gyms, discos, orgy rooms, army fatigues, moustaches, and advertising agencies what *Portnoy's Complaint* did for Mom and masturbation.

LIBRARY JOURNAL

'I hope the gay community won't lose its sense of humour about this book. *Faggots*, for all its excesses, is frequently right on target and, when it is on target, is appallingly funny.'

EDWARD ALBEE

'Writing as always from an affirmatively homosexual point of view, Kramer in this novel conveys a sense of premonitory unease, even foreboding, about the spread of promiscuity, sado-masochism and narcotics among the homosexual population... more graphic than James Baldwin or Hubert Selby.'

SAFER SEX

Safer sex guidelines are a simple and effective way of reducing your risk of contracting the AIDS virus. It is not the number of sex partners you have that matters, but what you do together. Basically, the advice is simple;

*Avoid any sexual activity which exposes you to your partner's body fluids - particularly semen and vaginal secretions.

*If you have anal or vaginal intercourse use a condom and a water based lubricant e.g. KY Jelly. Some lubricants are oil based and will damage the condom.

*Avoid activities which expose you and your partner to each other's blood.

However, human sexuality is very varied in its expression. This basic advice will give us an understanding of the levels of risk for our various sexual activities:

**DON'T
FORGET**
Softer Sex

Safe

Kissing
Hugging, Holding and Cuddling
Body to body rubbing
Mutual Masturbation

Low Risk

Oral sex - both fellatio and cunnilingus (mouth to penis and mouth to vagina contact)

Anal or vaginal intercourse with a condom (the risk here is if the condom breaks or slips off which is very unlikely IF the condom is used properly)

Watersports (urinating on skin without cuts or sores). Swallowing semen.

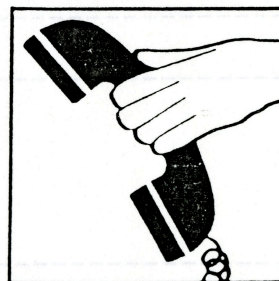

Risky

Sharing dildoes, sex toys or douches, Rimming (mouth to anus contact). Watersports in your mouth or on broken skin.

Very Risky

Anal or vaginal intercourse without a condom.
