A small group of dykes in Cork City
Thought it was a terrible pity
There was no 'girl-only' place
So they set up a space
And now in Beours they're all sitting pretty.

So, what type of women come to Beours?

Sound Women!

Coming out to myself took quite a bit of time. All the signals I had as a kid told me it was wrong and shameful to be a lesbian. But now I can say, fuck the lot of them! I'm living my best dyke life!

Beours has been such a positive experience for me. I didn't realise how much I missed being with other lesbians. It's really great to feel like I belong.

There are loads of lesbians in Cork! The People's Republic has always been a city of great welcome for women who love women and now Beours is extending that welcome to you!

We have secured a beautiful pub space, upstairs in the Abbot's Ale House. The pub prides itself on its massive selection of craft beers and expert, friendly service.

Our pub nights are just that- a night in the pub. We gather for a chat, a few drinks and a bit of craic in a women-only bar. We meet on the 3rd Saturday of every month right in the city centre.
