The Post Amendment Group
Sullivans Quay
Cork

A Post Amendment Group meeting will be held in the Co-Op, 24 Sullivans Quay, at 8.00 p.m. on Thursday 10th November.

We are establishing action groups on the following themes:

Womens' Health: some of the aims of this group will be to monitor the effects of the Amendment, to research availability, accessibility and information on contraception. To conduct a survey of hospital treatment of women, particularly with regard to the passing of the Amendment. To collate histories of women's experiences of miscarriage, abortion and difficutlies in pregnancy.

Illegitimacy: To fight the reactionary forces who are already trying to stop the proposed legislation to abolish some of the stigmas of illegitimacy.

The Criminal Justice Bill: We have been involved in fighting one campaign against repressive legislation. We feel this is another attack on fundamental freedom. The Bill is in the Dail, immediate action is needed, a Public Meeting should be called.

Network Group: During the campaign we were aware of the isolation in which many rural groups and individuals had to work, therefore, we propose to develope a supportive network for rural gruops and individuals. This will be a continuation of the work started at the recent regional meeting.

Other areas of possible activity are: divorce, welfare rights, child care facilities etc., the list is endless.

The work is there and it needs to be done. If you cannot attend but are interested in working on one of the above areas please ring 931 776 and leave your name, address and area of special interest.

There will be a National Meeting of the Post Amendment Ad Hoc Group in Dublin on Saturday 12th Nov., and on Thursday we shall discuss proposals and transport to this meeting.
