

# About Corti

Corti is a machine learning company, providing accurate diagnostic advice to emergency services, allowing patients to get the right treatment faster.

## AI that saves lives.

Corti listens in on emergency calls and analyzes conversations in real time. Utilizing cutting-edge machine learning, Corti helps dispatchers diagnose illnesses and provides prompts for effective action.

Corti's technology is anchored in human experience and is built as a symbiotic decision-support system. Corti's AI leverages historical data and artificial neural networks to understand context and patterns in human conversations.

Corti's solution has been developed in close collaboration with the world's leading EMS departments and is fine-tuned to provide a highly-optimized workflow.

Corti's real-time AI-powered decision support system, Detect, is delivered as part of a holistic solution, which includes Triage and Review, all aimed at allowing dispatchers to make decisions faster and more accurately.
