RUSSIA DUAL RETURN FUND
LONG ONLY USD DENOMINATED RUSSIAN & GLOBAL EQUITIES
November 2015

Fund Description

Russia Dual Return Ltd is an investment fund registered in the British Virgin Islands. It is a Professional Fund as defined by the Securities and Investment Business Act, 2010 (SIBA).

The investment objective is to achieve capital appreciation in US dollar terms by investing primarily in US dollar-denominated equities of Russian companies (both locally traded and in the form of depositary receipts) and to a lesser extent in companies of CIS countries. The Fund aims to outperform the benchmark index (the RTS Index) in the long term.

The Fund uses a "long only" actively managed strategy, deriving returns from growth and value investing as well as arbitrage and short-term speculative strategies.

Manager Commentary

Global markets showed high volatility in November, but the ruble-denominated segment of the Russian market remained strong. Pressure on high-risk assets increased in the first ten days of December, before and immediately after the OPEC meeting. Oil remains a drag for equity markets and there are no signs yet of reduction in oversupply to physical markets.

Some market segments and individual shares look strong and we expect to see attractive entry points for Russian and global equities in the mid-term, following the current withdrawal.

We carried out no trades in our portfolio in November.
