RUSSIA DUAL RETURN FUND
LONG ONLY USD DENOMINATED RUSSIAN & GLOBAL EQUITIES
December 2016

Fund Description

Russia Dual Return Ltd is an investment fund registered in the British Virgin Islands. It is a Professional Fund as defined by the Securities and Investment Business Act, 2010 (SIBA).

The investment objective is to achieve capital appreciation in US dollar terms by investing primarily in US dollar-denominated equities of Russian companies (both locally traded and in the form of depositary receipts) and to a lesser extent in companies of CIS countries. The Fund aims to outperform the benchmark index (the RTS Index) in the long term.

The Fund uses a “long only” actively managed strategy, deriving returns from growth and value investing as well as arbitrage and short-term speculative strategies.

Manager Commentary

December was another positive month in equity markets. Russian shares looked on the bright side and moved up behind oil and expected good relations with the Trump presidency. European markets also rose, and the US stock market continued to trade near historical highs.

We still hold a comfortable level of free cash in the portfolio, while taking selective advantage of speculative opportunities.

We sold GDRs of Gazprom and shares of Walt Disney Co. in December.
