RUSSIA DUAL RETURN FUND
LONG ONLY USD DENOMINATED RUSSIA & CIS EQUITIES
December 2013

Fund Description

Russia Dual Return Ltd is an investment fund registered in the British Virgin Islands. It is a Professional Fund as defined by the Securities and Investment Business Act, 2010 (SIBA).

The investment objective is to achieve capital appreciation in US dollar terms by investing primarily in US dollar-denominated equities of Russian companies (both locally traded and in the form of depositary receipts) and to a lesser extent in companies of CIS countries. The Fund aims to outperform the benchmark index (the RTS Index) in the long term.

The Fund uses a "long only" actively managed strategy, deriving returns from growth and value investing as well as arbitrage and short-term speculative strategies.

Manager Commentary

December was generally positive for the market, but first trading days in January brought a correction. Current levels make a tempting entry point, but we see a possibility of further modest declines as spring approaches. We view dividend stocks, quality second-tier names and Gazprom as particularly interesting. We are still holding a significant share of the portfolio in cash, awaiting more favorable dollar prices for Russian equities and in order to take advantage of a few speculative ideas.

In December we sold Severstal and preferred shares of Surgutneftegaz, and speculated with GDRs of Gazprom, Lukoil, Tatneft, Novatek and TCS Bank.
