RUSSIA DUAL RETURN FUND
LONG ONLY USD DENOMINATED RUSSIAN & GLOBAL EQUITIES
May 2018

Fund Description

Russia Dual Return Ltd is an investment fund registered in the British Virgin Islands. It is a Professional Fund as defined by the Securities and Investment Business Act, 2010 (SIBA).

The investment objective is to achieve capital appreciation in US dollar terms by investing primarily in US dollar-denominated equities of Russian companies (both locally traded and in the form of depositary receipts) and to a lesser extent in companies of CIS countries. The Fund aims to outperform the benchmark index (the RTS Index) in the long term.

The Fund uses a “long only” actively managed strategy, deriving returns from growth and value investing as well as arbitrage and short-term speculative strategies.

Manager Commentary

Markets continued their hesitant recovery in May following the sell-off in the first quarter. Global stock markets were supported by good macroeconomic data despite various negative geopolitical factors. We expect further recovery of risk assets in the near term, but remain conservative overall. The US stock market has yet to prove its ability to repeat recent historical highs, and the investment climate in Russia is not improving.

We sold shares of Alphabet Inc. in May.
