RUSSIA DUAL RETURN FUND
LONG ONLY USD DENOMINATED RUSSIA & CIS EQUITIES
March 2013

Fund Description

Russia Dual Return Ltd is an investment fund registered in the British Virgin Islands. It is a Professional Fund as defined by the Securities and Investment Business Act, 2010 (SIBA).

The investment objective is to achieve capital appreciation in US dollar terms by investing primarily in US dollar-denominated equities of Russian companies (both locally traded and in the form of depositary receipts) and to a lesser extent in companies of CIS countries. The Fund aims to outperform the benchmark index (the RTS Index) in the long term.

The Fund uses a "long only" actively managed strategy, deriving returns from growth and value investing as well as arbitrage and short-term speculative strategies.

Manager Commentary

March failed to meet our expectations. Russian stocks fell, despite rising global equity markets, oil price strength, and a relatively stable ruble. Cyprus added to Russian market woes in mid-month, erasing hopes for growth in the spring.

Taking advantage of the market volatility, we bought back shares of Norilsk Nickel, Acron and Sberbank, and took positions in Novatek and LSR Group at the beginning of March. However, we anticipate a deeper correction in April-May and may close some positions in the next few weeks. We still like metals & mining stocks, viewing them as a good bet on recovery, and we will diversify the portfolio further towards domestic, consumer-driven stories at the expense of oil & gas equities.
