Make the Most of Your Smile

Benefits of Opalite Zirconia Custom Abutments:

- **Natural Aesthetics** - Blends beautifully with your natural teeth with a variety of shades available to suit your individual needs
- **High Strength** - Strong enough to be used throughout the mouth
- **Biocompatible** - Works harmoniously with your natural mouth, created to fit each individual perfectly

Looking After Your Implants

- Implants are a safe well established treatment. Much like natural teeth, they will last as long as you care for them
- Brush twice a day and visit your dentist every six months for a check up
