

Whitening

Perfect White Package

Many patients have an interest in a brighter, more attractive smile. Whitening can make such a dramatic difference to a smile, comfortably and in only a few appointments. With teeth whitening patients can have a brand new smile within just a couple of visits. Many people find whitening to be easy and convenient because most of the treatment can be done at home.

Advantages:

- Excellent and long - term results
- **Variety** - patients have a choice of whitening trays with numerous whitening accessories
- **Convenience** - patients can do home whitening at any time of the day or night, for short or extended periods
- Cost - effective

Disadvantages:

- Can cause sensitivity
- Not suitable for Veneers and Crowns

WHITENING

The Perfect White Package

Whitening treatments are a great extra to offer patients. We can provide you with perfect white kits and bespoke patient literature to help promote teeth whitening within your practice.

The Process:

- **First patient appointment** - Take impression and send to DTS, which is then returned in 3 working days
- **Second patient appointment** - Try bleaching trays and make sure they fit perfectly, give these to your patient with instructions on how to use these.

This will result in a very happy patient with their perfect sparkling white smile.

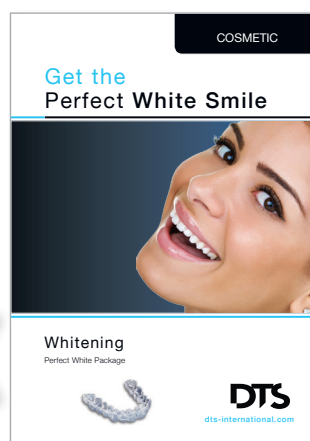

The package includes the following:

- Trays (single or double)
- Interproximal brushes
- Double Arch
- Toothbrush
- Whitening Products
- Four Working Days Turnaround
- Toothpaste
- Bleaching Appliances
- Bleach (of your choice)
- Single Arch

Help your patients understand your recommended restoration with patient literature tailored to your practice.
