

Cafétouch

## CT7 CAFÉTOUCH

Bean to cup

Offer first class speciality coffees to customers and staff at the simple touch of a button

Conceived for use in the most varied places - offices, showrooms and restaurants - the Cafétouch 7 has 3 product canisters and 8 push buttons, thereby offering a superb range of drinks. The unit's elegant shades of dark grey and aluminium along with the geometric forms are softened in the front part of the machine by the LED lighting. The Cafétouch 7 is available in both manual fill and mains water configuration, allowing flexibility for your environment.

### DIGITAL DISPLAY

The CafeTouch 7 is equipped with an easy to read digital display screen.

### BACK LIT BUTTONS

Select your chosen beverage with ease from the clearly labelled, back lit selection buttons.

### PIVOTING CUP STAND

The Cafetouch 7 machine has a pivoting cup stand to accommodate both cups and jugs.

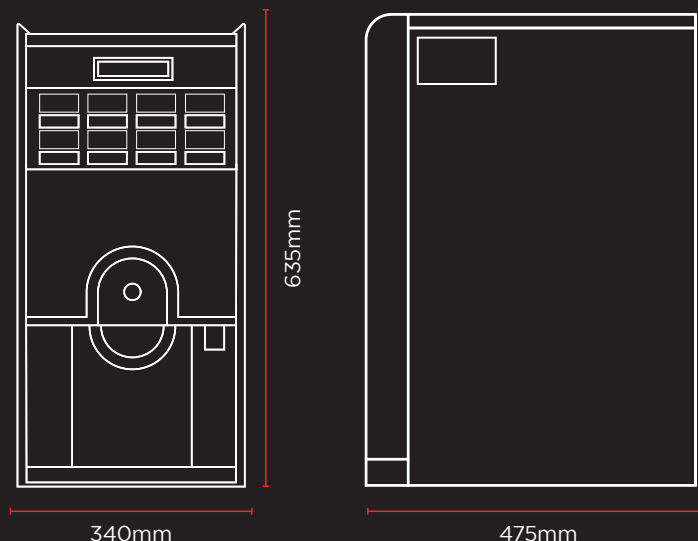

### LIQUID WASTE TRAY

This machine has a liquid waste/drip tray with a visible signal for 'maximum water level'.
