Platooners

Time for action!

Version 1.0

Welcome back to Hollywood!

Meet our entertaining friends from Bloopers again, as they take us on an epic journey bringing you closer to an actual action movie production than ever before – Platooners.

Immerse yourself in the jungle battle set of "Platooners" – a great new action movie, showing the progress of a team of dynamic recruits battling through an awesome bonus game where they do their utmost to defeat three gold-filled snakes, and unlock their hidden treasures.

The stars of the show stumble and fumble, impossible to control, but always eager to please. Watch them as they fire rockets and heavy machine guns and throw grenades to give the player an additional level of entertainment value never seen before in a slot game.

Platooners is an action-packed, highly entertaining 5 reel slot designed for Mobile First. The game mechanics and stunning visual effects keeps the player on the edge of the seat at all times through this epic journey.

Connecting paylines generate 178 ways to win, and the maximum win is 250,000 coins. The Platooners vs Snakes of Fortune bonus game offers a unique experience accompanied by epic music. Defeating snakes and leveling up intensifies the action even further and also generates considerably higher wins.

Action stations – spin!

All three Platooners have individual ways of interacting with the reels during the Action Spins!

Action Spins! are randomly triggered in-between normal spins.

Action Spins!

This game boosts excitement with very single spin, since at any time after a spin a Platoonier might turn up and fire weapons as the reels start spinning again – true Action Spins! All three Platooners have their individual way of interacting with the reels but always in the favor of the player.

The green Rockets Platoonier launches rockets at reels 1 and 3, filling them with identical symbols resulting in great chances of winning on many paylines as the remaining reels come to a stop.

The red Grenades Platoonier is totally uncontrollable and throws grenades in all directions resulting in random wilds on reels 3, 4 and 5 during reel spin.

The yellow Bullets Platoonier fires his heavy machine gun at reel 2 to 5 after the first reel stops, generating at least one 5 of a kind payline. Connecting paylines make sure the chances of multiple paylines are really high. A really lucky spin will generate a payline of 5 bonus symbols resulting in an immediate entrance to the bonus game with all three Platooners active in every round.

The Rockets Platoon covers reel 1 and 3 with identical symbols.

Wilds are added to reels 3, 4 and 5 when the Grenades Platoon is triggered.

The Bullets Platoon generates at least one payline of 5 of a kind.

There are three different snake levels in the Platooners vs Snakes of Fortune bonus game.

Platooners vs Snakes of Fortune

Three or more bonus symbols anywhere on the reels trigger the Platooners vs Snakes of Fortune bonus game, which starts off with 15 rounds. The Platooners will take turns in attacking the snake for the duration of the rounds. But for every extra bonus symbol you managed to hit, you will activate additional attacks already from the start.

Going in with two Platooners doubles the damage, and going in with three triples the damage! The aim of the game is to defeat the snake completely. Upon achieving this the Platooners' weapons will be upgraded resulting in additional damage. Activation of additional attacking Platooners and more ammunition can be awarded during the bonus game. Really lucky hits release bombs which in turn damage bigger segments of the snake.

Defeating a snake takes the player to the next level, which also means considerable higher payouts.

Display modes

We believe people are different, and enjoy playing differently. Therefore when playing Platooners, the gaming experience is flawless regardless of what display mode is chosen. Functionality and icons are kept the same to ensure recognition between the different modes.

All ELK games are Mobile First and can be played on desktop as well as on mobile. Being Mobile First is essential since the smartphone is always accessible, and given the high level of hardware capabilities the gaming experience needs to be impressive.

Portrait mode

Portrait mode is ideal for people on the move. It brings some additional requirements in terms of one-handed access. All functions and settings are accessible by the usage of your thumb. The navigation in portrait mode is well thought through and focused on vertical movement and touch functionality.

All functionality is easy accessible and icons are kept the same to ease transition between different modes.

Landscape mode

All ELK games can be played in landscape mode. Navigation in landscape mode is focused on horizontal movement and touch functionality. All functionality is easy accessible and icons are kept the same to ease transition between the different modes. Simply turn your smartphone into your preferred mode.

Desktop mode

Mobile First is the core functionality, yet all ELK games are designed to provide an equally excellent gaming experience on desktop. The visual presentation is adjusted to suit the higher resolution a desktop usually provides.

General features

Betting strategies

All ELK games come with Betting strategies, which are highly appreciated by players worldwide. There are four unique strategies, which all apply to different type of gaming behavior. *(Read more about Betting strategies on the next page.)*

Auto Spin

All ELK games support **Auto Spin**. Click the Auto Spin button or simply hold down the Spin button to activate the Auto Spin menu and choose the number of spins to run.

Options for Auto Spin may differ due to different regulations.

Betting Strategies

Many players change their bet size based on the outcome of previous spins. ELK has introduced a new way of playing casino games with the launch of Betting Strategies. A betting strategy is a predefined betting pattern that automatically changes the bet level depending on a chosen set of rules. A player can change or turn off the betting strategy after any spin. Betting Strategies work well in combination with Auto Spin.

Optimizer Bets a % of balance

The bet level will be changed automatically to a percentage of the player's balance. When the balance increases the bet level follows up automatically, and vice versa when the balance decreases.

From 1% (*casual player*) to 10% (*high roller*) of the bet balance.

Leveller Raise on 5 concurrent losses

The bet level will increase 2 steps after 5 concurrent losing rounds. After another 5 losing rounds the bet level will increase 2 more steps.

Bet levels will be reset to base level after a winning round.

Booster Raise on loss

The bet level will increase one step after every losing round until reaching 4 levels above base level (e.g. 10 times base level).

Bet levels will be reset to base level after a winning round.

Jumper Raise on win

The bet level will increase after every winning round until reaching 4 levels above base level (e.g. 10 times base level).

Bet levels will be reset to base level after a losing round.
