Wild Seas

Time for revenge

Version 1.0

Fire in the hole!

Suddenly the usually calm and serene tropical waters outside Port Royale turn into a stormy battleground. The mighty thunder of cannons fired, and the fog rolling in from the open sea, surrounds the treasure-loaded merchant convoys as they are beset by the notorious pirate, Anne Bonny. With her loyal crew and swift vessel, she makes sure the mighty trading companies are kept honest. No one is guaranteed an easy passage if they carry valuables onboard.

Anne Bonny, deeply loved and admired by the islanders and local fishermen, but disliked and neglected by the mighty East India Company, saw her father being betrayed. Deceived by the same rogue captains who now command the merchant ships rightly belonging to the people of Port Royale. As an orphaned child, Anne vowed for the time when she would get her revenge and bring back wealth and treasures back to the ones worth it.

Wild Seas is a 5 reel slot designed for Mobile First. It brings a mix of free spins, wilds, sailing wilds, sticky wilds and added rewards in terms of leveling. Connecting paylines generate 178 ways to win and the chance to win as much as 178.000 coins.

Set sail and steer your ship back to the Golden Age of Piracy!

Two Wild Seas flag symbols trigger the bonus game. One of the captains is selected as opponent.

Bonus game

Level 1 – Break the Convoy!

Two Wild Seas flag symbols anywhere on reels two and four trigger the free spins bonus game. One of the merchant captains present on screen is selected as the opponent, and replaces all other captains during the bonus game.

Break the Convoy! is the first level of the bonus game. It starts off with a convoy of merchant ships covering reel five. The convoy sails one step leftwards for every free spin. A pirate ship landing on reel five fires its cannons at any ship on the same row. This damages the merchant ship and holds it back for one spin. Additional hits damage it even further. Three hits on a ship will sink it and reveal the captain's loot chest. The goal is to collect as many loot chests as possible before the next bonus game level – Loot the Treasures!

If no ship is sunk during Break the Convoy!, the bonus game will end when all merchant ships have spun away on reel one.

The merchant ships move one reel per spin in Break the Convoy!

The pirate ship fires a salvo on any merchant ship on the same row. This damages the ship and holds it back for one spin.

*Three hits sink a merchant ship and guarantees to start Loot the Treasures!
– the second level of the bonus game.*

A chest turns into a sticky wild if hit. But watch out for the explosive bomb barrels on reel one!

Bonus game

Level 2 – Loot the Treasures!

The second level of the bonus game – Loot the Treasures! starts off with free sticky wilds on all the locations held by captain's loot chests. The goal is to keep adding as many sticky wild chests as possible, and collect the combined treasures.

Reels two, three and four are all filled with treasure chests. Hit these and they open up and reveal themselves as sticky wilds. But watch out for bomb barrels on reel one – they're loaded with gunpowder. If hit, a barrel will explode and end the bonus game! A high frequency of looted treasure chests, and extra pirate ships added to reel 5, sets the stage for considerable sticky wild wins in this phase of the bonus game.

Display modes

We believe people are different, and enjoy playing differently. Therefore when playing Wild Seas, the gaming experience is flawless regardless of what display mode is chosen. Functionality and icons are kept the same to ensure recognition between the different modes.

All ELK games are Mobile First and can be played on desktop as well as on mobile. Being Mobile First is essential since the smartphone is always accessible, and given the high level of hardware capabilities the gaming experience needs to be impressive.

Portrait mode

Portrait mode is ideal for people on the move. It brings some additional requirements in terms of one-handed access. All functions and settings are accessible by the usage of your thumb. The navigation in portrait mode is well thought through and focused on vertical movement and touch functionality.

All functionality is easily accessible and icons are kept the same to ease transition between different modes.

Landscape mode

All ELK games can be played in landscape mode. Navigation in landscape mode is focused on horizontal movement and touch functionality. All functionality is easily accessible and icons are kept the same to ease transition between the different modes. Simply turn your smartphone into your preferred mode.

Desktop mode

Mobile First is the core functionality, yet all ELK games are designed to provide an equally excellent gaming experience on desktop. The visual presentation is adjusted to suit the higher resolution a desktop usually provides.

General features

Betting strategies

All ELK games come with Betting strategies, which are highly appreciated by players worldwide. There are up to four unique strategies, which all apply to different types of gaming behavior. *(Read more about Betting strategies on the next page.)*

Auto spin

All ELK games support **Auto spin**. Click the Auto spin button or simply hold down the Spin button to activate the Auto spin menu and choose the number of spins to run.

Options for Auto spin may differ due to different regulations.

Betting strategies

Many players change their bet size based on the outcome of previous spins. ELK has introduced a new way of playing casino games with the launch of Betting strategies. A betting strategy is a predefined betting pattern that automatically changes the bet level depending on a chosen set of rules. A player can change or turn off the betting strategy after any spin. Betting strategies work well in combination with Auto spin.

Optimizer Bets a % of balance

The bet level will be changed automatically to a percentage of the player's balance. When the balance increases the bet level automatically follows up, and vice versa when the balance decreases.

From 1% (*casual player*) to 10% (*high roller*) of the bet balance.

Leveller Raise on 5 concurrent losses

The bet level will increase 2 steps after 5 concurrent losing rounds. After another 5 losing rounds the bet level will increase 2 more steps.

Bet levels will be reset to base level after a winning round.

Booster Raise on loss

The bet level will increase one step after every losing round until reaching 4 levels above base level (e.g 10 times base level).

Bet levels will be reset to base level after a winning round.

Jumper Raise on win

The bet level will increase after every winning round until reaching 4 levels above base level (e.g 10 times base level).

Bet levels will be reset to base level after a losing round.
