

Wild Toro

Friendly, fast... and furious!

Version 1.0

Experience the epic showdown between two fierce rivals who once were best friends. Toro, the proud and charming champion, and his challenger, the sneaky Matador, Diaz Jr.

The mere sight of the spiteful Matador is enough to make Toro furious, and Toro goes wild. Really wild! Charging like a steam train through dust and sand, he defeats all Matadors in sight and leaves massive build-ups of Wild symbols behind. The pace in the exciting bonus game Toro Goes Wild is high and doesn't settle down until Toro has totally beaten his persistent challenger.

Wild Toro is designed for Mobile First and offers an action filled and exciting mix of Wilds, Walking Wilds, respins and freespins accompanied by catchy music. Connecting win lines generate 178 ways to win, with the chance of winning up to 225,000 coins in this action filled 5 reel slot.

Flags waving in the wind, music playing and people cheering. It is time to start the festivities! The whole town is vibrating with anticipation. The crowd is gathered around the market square, the central point of the action, and as always there are fans on both sides.

Game features

Toro Walking Wild

Toro Wild symbols appear on the rightmost reel, and the Toro Walking Wild feature is triggered every time the symbol hits.

Toro moves reel by reel from right to left and triggers a respin for every move. The feature continues until Toro reaches the leftmost reel, and then the collected winnings are paid out.

Toro Goes Wild bonus game

The intense and action filled "Toro Goes Wild" bonus game starts every time a Matador lands, on any reel position, during the Toro Walking Wild feature. The Toro immediately turns into a furious, raging bull and attacks all Matadors in sight, leaving a trail of Wild symbols behind for the next respin. Toro returns to his normal self, Toro Walking Wild, as soon as all Matadors have been defeated.

Only one Toro at a time actively attack Matadors.

Game features

Matador Respin Challenge

Three Matadors hitting the middle reels in the same spin trigger the Matador Respin Challenge. All Matador symbols are sticky during this feature and every Matador generate one respin. The spiteful Matador taunts and challenges Toro, which drastically increases the chance of a Toro hitting on the last reel. Every additional Matador appearing during the Matador Respin Challenge brings an additional respin. The feature ends when all Matador respins are run or if Toro appears to take on the challenge.

Betting Strategies

Looking for even more action?

Many players change the bet size based on the outcome of previous spins. Therefore ELK introduced a new way of playing casino games through the launch of BETTING STRATEGIES. A betting strategy is a convenient tool with a predefined betting pattern that automatically changes the bet level depending on a set of rules. A player can change or turn off the betting strategy after any spin. Betting strategies work well in combination with Auto Spin.

Optimizer Bets a % of balance

The bet level will be changed automatically to a percentage of the player's balance. When the balance increases the bet level follows up automatically, and vice versa when the balance decreases.

From 1% (Casual player) to 10% (High roller) of the bet balance.

Leveller Raise on 5 concurrent losses

The bet level will increase 2 steps after 5 concurrent losing rounds. After another 5 losing rounds the bet level will increase 2 more steps.

Bet levels will be reset to base level after a winning round.

Booster Raise on loss

The bet level will increase one step after every losing round until reaching 4 levels above base level (e.g 10 times base level)

Bet levels will be reset to base level after a winning round.

Jumper Raise on win

The bet level will increase after every winning round until reaching 4 levels above base level (e.g 10 times base level).

Bet levels will be reset to base level after a losing round.
