Belgian Heart Rhythm Meeting

Word from the Founding Organisers

Dear Colleagues and Friends,

We are pleased to announce the 14th edition of the Belgian Heart Rhythm Meeting, "Arrhythmias for every Cardiologist", which will be organised on Thursday 22nd and Friday 23rd October 2020.

This year is full of uncertainties and, more than ever, it is important to bring together healthcare professionals working in the field of cardiology to exchange and share experiences and research results on all aspects of clinical rhythmology.

In order to create a COVID-19 safe environment, we are committed to make this congress happen with social distancing and security measures: attendance will be closely monitored, all common areas will be disinfected, the flow to enter and exit meeting rooms will be regulated, etc.

The scientific programme, presented by distinguished speakers, will focus on daily management of cardiac arrhythmias, including socio-economic and radioprotection sessions, moderated poster sessions and ECG courses.

Rhythmology did not stop with the Pandemic! So let's continue, by maintaining the highest standards, proposing a scientific event worth attending.

Mark your calendar and join us to the 14th Belgian Heart Rhythm Meeting.
