

## Oporto's back baby!

It's been a while since we've been able to party properly, so we wanted to let you know what to expect as we move closer to normal.

As government guidelines relax on 19<sup>th</sup> July we can look forwards to sharing the good ship with more of you, chatting at the bar, enjoying live music & dancing in your favourite corner.

It's exciting, but it's up to all of us to keep each other safe. Everyone is at different points on their journeys, so here's a few ways we can do this together, whether on a night out, scanning Knave's Kitchen, or finding our new favourite artist...

What we are doing:

- Deep cleaning every day
- Cleaning high contact surfaces every 30 minutes
- Offering sanitising stations on tables and around the venue
- Maintaining air quality with powered ventilation & air conditioning
- Continuing to offer outside areas for whenever you need, including during events
- Masks will always be welcome for guests and staff
- Offering ticket refunds where possible if you can't attend a gig due to isolation\*

Please take advantage of these & continue washing hands regularly to reduce risk, as bar service and dancing on tables returns!

What you can do:

- Take a free lateral flow test
- Get vaccinated
- Register your immunity (post covid)
- Sign in using the NHS App

If you can't do any of the above, for any reason, we will not exclude you from the venue, we are not asking for "vaccine passports" or any other certification. However, the more steps you can take the safer it is for all customers, staff and performers. If you have COVID-19 symptoms, or have been in contact with someone who has, please say home & enjoy #OportoTV

Here's to 24 more years rocking.

Team Oporto & Knave's
