

FORD PROTECT

Mechanical Breakdown Warranty

Judge it by its cover

## Warranty that works

Quality and dependability are, no doubt two of the main reasons why you chose to drive a Ford in the first place.

All Ford vehicles are designed and built to extremely high standards, with the aim of delivering a fun and carefree driving experience. However, over time some mechanical parts of your vehicle may wear and in some cases, could fail and need replacing, leaving you with an unexpected repair bill.

You can now have peace of mind with the **Ford Protect** Mechanical Breakdown Warranty. Put simply, it could mean no more repair bills on covered components for up to 3 years, leaving you to get on with enjoying your Ford experience.

## Hidden cost of owning your commercial vehicle

Your commercial vehicle is covered by the Ford manufacturer warranty for 3 years\*. When this cover ends, any repair costs need to be met by you, unless of course you have a **Ford Protect** Mechanical Breakdown Warranty. As the age and mileage of your vehicle increases, the risk of an unexpected mechanical failure also increases, whilst an electrical failure can occur at any time.

Where is your vehicle on the graph below and more importantly, where will it be in 3 years time?

## Risk of Repair Graph

\*Mileage limitations apply.

## Protect your vehicle for the road ahead

Ford Protect takes over when your manufacturer's warranty expires, or has already expired, and covers commercial vehicles up to 5 tonnes GVW.

(Subject to your vehicle having been maintained in accordance to the manufacturer's service schedule by an authorised repairer)

### Cover level

For commercial vehicles less than 10 years old and 100,000 miles at point of warranty sale.
