Founded in 2001, Bespoke Leisure has grown to become one of the few companies in the UK and Ireland to hold Type Approved Manufacturer status – a mark of quality, safety, and compliance in the leisure vehicle industry.

We have recently relocated to a new, purpose-built facility that showcases our commitment to innovation and quality.

Our priority is to design and build safe, efficient leisure vehicles crafted from only the highest quality materials. We offer customers a wide range of customisable options, including a broad selection of colours and styling options.

ACCREDITATIONS

We are a 'Type Approved' campervan manufacturer. This means all our campervans are correctly registered with DVLA as motor caravan / M1.

We also hold all major approvals including the below:

Whole Vehicle Type Approval for the Ford Transit Custom and the new VW Transporter T7.

NCC Approved - We adhere to British and European standards for the leisure industry. All our vehicles proudly carry the NCC badge.

VW Qualified - We are a certified motorhome qualified convertor of VW commercial vehicles.

We build with quality and safety at the core of everything we do. These approval standards give our customers peace of mind that our campervans are built to the highest industry standards possible.

Our new **vehicle warranty** is 3 to 5 years consistent with Ford or VW mechanical warranty on the vehicle.

Ford Transit Custom Plug In Hybrid (PHEV)

Bespoke Explore / Four Berth | New for 2026

Our brand new **2.5L 232 PS Petrol Hybrid GASLESS** campervan currently based on the Ford Custom Limited specification.

Utilising the vehicle hybrid battery technology to provide a complete gasless off grid camping experience, providing 2.3KW of electric power at the simple touch of a button.

A smart choice for travellers who want to reduce their environmental impact whilst maintaining flexibility and comfort on the road.

Better Fuel Efficiency -Hybrid systems use a combination of combustion engine and an electric motor. This can significantly reduce fuel consumption especially in city driving or stop-and-go traffic, compared to traditional campervans. Listed Ford WLTP figures of up to 176 mpg depending on usage.

Reduced Environmental Impact - Lower CO2 emissions help reduce your carbon footprint.

Quieter Option - Less noise while driving and more peaceful camping.

Low Emission Zones - Access more destinations with a hybrid campervan including low emission zones or protected areas giving you access to more places.

Key Features:

- Luxury Corian solid surface worktop
- Dometic induction hob
- NEW Dometic 3 in 1 AirFryer Oven Microwave Combo
- Electric heating
- Gasless off grid camping experience

SUSSEX *by Bespoke*

Sussex Caravan Centre is a family run business, trading for over 35 years. Based at two sites in East and West Sussex, we pride ourselves on offering customers across the county and its surrounding areas with top quality caravans, motorhomes and campervans for sale.

The company was founded in 1989 by previous director Brian Langridge and current director Martin O'Neill, who between them have over 60 years' experience in the industry. Since its inception, they have drawn on this extensive experience to create a very successful and multi-award-winning dealership, earning an excellent reputation.

In our pressure-free sales environment, we ensure we provide each and every customer with an exceptional level of service - with a smile. Our team are on hand to answer any questions you may have, to ensure you're able to purchase the caravan or motorhome that best suits your needs and budget.
