

How To Use The Player Availability Section Of The Website

To access the player availability section, you must first log in.

On the menu that appears, click 'Player Availability'.

In order to fully set your availability for every dates; you need to change the defaults so that it shows the fixtures of all the teams.

Follow the 'click here to include more teams' link.

How To Use The Player Availability Section Of The Website

Adam Carter - Third XV - Player Availability

By default we only show fixtures for your primary team (Sheffield Medicals RUFC Third XV). [Click here to include more teams.](#)

☒ First XV ☒ Second XV ☒ Third XV

Save

Here, check all three teams and click 'save'.

Now the screen will show all the dates where there is a fixture.

On this feature, **you make yourself available for a date**, not a match. These can only be done 8 weeks in advance. Update your availability even if your team isn't playing as there may be rearranged fixtures.

You do this by clicking the relevant grey icon under the traffic light menu.

Once this is done it will appear as a colour.

The system will not automatically save your changes. You must press 'save' at the bottom of the fixtures.

Teams will be selected after Tuesday training so please have your Saturday availability updated before you leave for S10.
