To youth team managers / coaches

I've noticed that clubs have started to send invites for tournaments they are holding this summer. If you are thinking of entering please give thought as to whether:

- Is it safe to do so. Covid still exists and tournaments can get crowded especially around the refreshment and admin tent together with use of toilets.
- Has a risk assessment been issued by the hosting club with instructions / details as to how covid is being minimised.
- Number of spectators who can attend per player / team.

Regards

Mark
