

Select the match and tickets you would like to purchase as usual.

When you get to the checkout, you will have two delivery options to choose from - 'eticket By Email' (which is the usual PDF ticket), or the new, 'Apple Passbook By Email'.

If you have an iPhone and you prefer to store and show your ticket on your phone, this option will allow you to receive your match ticket as an Apple Pass and add it to the Apple Wallet app for easy access on match day.

After you have completed your purchase, just open your ticket delivery email on your iPhone and open the attachment.

You can add the pass to the Apple Wallet app by tapping the 'Add' option in the top right of the screen.

On match day, you will be able to access your ticket by opening the Apple Wallet app.
