- There is a large car park for over 130 cars, please do not park in the passing places or on verges, unless directed by marshals.

From the West:

Long vehicle access:

Most Sat Navs will route vehicles down the A56 from either East or West, then over Stanney Lunt bridge, which involves a sharp turn, narrow width and high hump back, with a maximum load of 6 tonnes. The turning after the bridge to Stockton Lane from this direction is even sharper, and involves doubling back down a narrow lane with parked cars down one side. This is not recommended for long vehicles.
