## **Barnsley Women's Football Club**

### **Club Philosophy**

At our club, safeguarding is the cornerstone of our philosophy. We prioritize the well-being and safety of every individual, especially our young athletes and vulnerable members, above all else. We are committed to providing a nurturing environment that promotes physical, emotional, and psychological safety. Our approach involves proactive education on safeguarding issues, clear policies and guidelines, and open communication with our members, parents, and guardians. We strive to foster a culture of respect, responsibility, and vigilance, ensuring that everyone, regardless of age or background, can enjoy the sport in a safe and inclusive atmosphere. Our dedication to safeguarding is unwavering, and we continuously work to uphold the highest standards of care and protection within our club.
