

New kit for Argyle

Football: NEW kit was presented on Sunday December 22 before a Dads v Lads Christmas football match at Woolton Hill school.

The 'lads' managed to show their more senior counterparts how it's done, winning each of their matches 5-4 and 4-3, respectively.

Andy Worrall, U8 coach said: "All at Woolton Hill Argyle would like to thank Feltham Construction for their kind and generous sponsorship of a new playing strip for our U8 squad as they have seen a big increase in their numbers in the lower age groups.

"This valuable contribution benefits not only their group but

The team in their new kit

also allows them to recycle their current strip down to the U7s so that more children in the club have their own kit and club funds can be utilised elsewhere."

Pete Malone, surveying

director of Feltham Construction, said: "We're delighted to sponsor this local youth football club and provide them with the kits they needed.

"Clubs such as W. H.

Argyle rely on the time and generosity of volunteers. For Feltham, as a local firm, it's nice to be able to give back in this way to local community."
