Pass P	ast the Defender					
10	less experienced playe The receiving player h side. If the defender interce Coaching Points The defender is only a Players should make	all runs arc e ball to th e ball to th e defende ss past the d to look u nder is vult nate wants tilise the 'lif th a flat sti all just ove ers are perf nas to run t epts the ba allowed to eye contac	players into group ound the cone before e player standing r players should e left foot of the p before they pass nerable and also t is the ball to be fted pass' if the ck. This should be er the defender's sl forming the lifted the ball around th ll players must char defend on the line t and the passer s	bups of before ng d hass to so to be a 's stick (it is a foul if it is lifted above knee height). Make sure ed pass safely. I the cone before attempting to pass the ball back to the othe change roles.		

Set up as shown in the diagram. Groups of 3:2 attackers trying to get past 1 defender and score in one of the two goals. Rotate the positions every few minutes / attempts. Start with a bounce pass (1-2 with the defender). 1 attacker dribbles towards (engages) the defender where they are presented with two options: They can either pass to the supporting player or take the ball themselves to go and score in one of the two corner goals. 10 Coaching Points Encourage players to use the V-drag or a dummy to commit the defender before either taking the ball on themselves or passing to their partner. Use the principles from the 'Pass Past the Defender' game (above) to eliminate the defender. Introduce the concept of running in behind the defender: Have the supporting attacker make a diagonal run behind the defender to create new options for the 2 v 1. Encourage attackers to start the exercise by dribbling at an angle rather than in a straight line to the defender. Make sure players are not trying to 'force' the pass through the defender. Keep the playing area narrow to ensure players don't drift too far from each other and make it impossible for the defender. 4 Zone - 2v1 Game 10 Coaching Points In each of the central zones there should be 1 player from each team. (If playing with larger teams then car adapt this to 2 players from each teams, In each of the central zone stue dout with cores. In each of the central zone the attack and creates the overloads (2v1). Coaching Points 10 Coaching Points This game gives your players the opportunity to try and use the 2v1 skill in a conditioned game situation. Once a goal is scored or possession is lost the teams should be given time to set up the same situation each time. 10 Match	2 v 1: D	ribble or Pass?					
Use the principles from the 'Pass Past the Defender' game (above) to eliminate the defender. Introduce the concept of running in behind the defender: Have the supporting attacker make a diagonal run behind the defender to create new options for the 2 v 1. Encourage attackers to start the exercise by dribbling at an angle rather than in a straight line to the defend Make sure players are not trying to 'force' the pass through the defender. Keep the playing area narrow to ensure players don't drift too far from each other and make it impossible for the defender. 4 Zone - 2v1 Game 2 teams play a 6v6 game (or similar), with a left and a right central zone marked out with cones. In each of the central zones there should be 1 player from each team. (If playing with larger teams then can adapt this to 2 players from each team). When defending, players can only stay in their starting zones. When attacking, players can run across into any zone to support the attack and creater the overloads (2v1). Coaching Points This game gives your players the opportunity to try and use the 2v1 skill in a conditioned game situation. Once a goal is scored or possession is lost the teams should be given time to set up the same situation each time. Match	10	Set up as shown in the diagram.
