Registration

With the introduction of Pitchero, all registrations for paying and non-paying members will be via the Club Website.

By doing this, it provides the club with an easier and more accurate way of collecting data, as well as improved membership data security and access control. All payments are made through a secure payment gateway, GoCardless, which is also able to produce receipts. By moving all submission of payments online, we are able to offer a wider variety of more flexible membership types (for example Pay and Play), without increasing the workload for captains or committee members, as this facilitates centralised collections with online revenue tracking tools.
