Colin Tinsley

Brechin Junior Rugby Club

Dear Mr Tinsley,

On behalf of Links Park Community Trust, the YM Montrose, and the Montrose Emergency Services, I wish to express our sincere gratitude for the support provided to us in the development and delivery of our 'Friday night Project' at Borrowfield Community Centre in Montrose.

The programme, which was aimed at providing local youths with active, healthy evening alternatives to somewhat less desirable activities, was a huge success, with over 50 children - between the ages of 10 and 15 - attending on a weekly basis.

The attraction for children, was the ability to participate in activities that they themselves had requested. Without the use of your mobile floodlights however, it would not have been possible for us to offer football as an activity, since daylight hours did not permit, and with no suitable indoor facility.

Despite somewhat 'inclement' weather at times, it did not deter youths from attending, nor did it prevent your fantastic band of volunteers from transporting, and supervising whilst in use, the equipment itself.

Thank you once again for your assistance, it was very much appreciated.

We wish you and everyone associated with your club every success, both on and off the playing field, and we look forward to working together again in the near future.

Yours in Sport

Peter Davidson

General Manager
