

4G Pitch

@the Raygar Stadium

FOOTWEAR GUIDELINES FOR THE 4G TRAINING AREA

The new training area at the Raygar Stadium includes a Fourth Generation (4G) Artificial Turf pitch

The pitch enables all year round access to sporting activity for both our players and local community groups.

The club is determined to maintain the surface of the pitch to the highest possible standard to guarantee its longevity for many generations of players to come.

To this end it is critical that the correct footwear is worn from two points of view:

- ❖ To avoid damaging the surface of the pitch
- ❖ To avoid injury.

Please note the following footwear will not be allowed on the pitch:

- ❖ No metal studs, blades or trainers of any type

Only approved footwear may be used on pitch as follows:

- ❖ Moulded rubber football boots
- ❖ Artificial turf trainers
- ❖ Non-metallic studs

Should you have any further questions please contact the Club on 07768 010604 or email 4GPitch@belpertownfc.co.uk
