Club Philosophy

"Enjoy, Develop, Succeed"

CHARTER STANDARD
COMMUNITY CLUB

Our Players

Our players should enjoy being part of our family. They should play without fear of making mistakes, they should make their own decisions; right or wrong, and above all, have fun.

Our players should play in a team appropriate to their own ability, irrespective of age, parental influences or expectations. They must be given the opportunity to play.

Winning should never come before the development of our players. Our players develop in different ways, at different ages and for different reasons.

Our Coaches

Our Coaches encourage our players to play fairly, with respect and with dignity at all times. Coaches should instil this in themselves and their parents and lead by example.

Our coaches and managers are role models for our players, always setting a good example on and off the pitch, creating a sense of safety, enjoyment and confidence.

Our Coaches ensure our players feel safe. We create a fun but challenging learning environment, developing our player's physical, psychological, technical and social qualities.
