

Cardiac Risk in the Young

**CRY IS COMING TO WPRFC on
7th January 2018**

12 young sudden deaths a week
and every loss is heartbreak

**1 in 30 young people between the age of 14 and 35 have
an undiagnosed heart defect.**

Cardiac Risk in the Young (CRY) aims to reduce the frequency of young sudden cardiac death.

CRY is coming to the club on 7th January 2018 to screen 100 members.

The club is working with the Ben Daniels Memorial Fund to make this available.

If a condition is found it will be referred to a specialist immediately.
