

SELBY RUFC Dog Exclusion Policy

Dogs are excluded from the land and buildings belonging to Selby RUFC.

This policy applies to all dogs, with the exception of qualifying assistance dogs, and applies to the clubhouse, car park and grounds.

The rule exists because of the potential for children and adults, playing at and visiting the club, becoming exposed to bacteria such as toxocariasis, which is known to be apparent in dog excrement. Toxocariasis is known to cause blindness in adults, but especially in children.

There is also evidence that dogs carry e.coli and hepatitis in their faeces.

This policy will be rigorously enforced by the volunteers and members of the club.

Please respect this rule!
